## Product Description

### Easy Apply Flexible Gel Type Physiotherapy electrode tens pads Pads Wire with Customize Shape

#### Product Description:

Our Tens electrodes are made using China, Japan, and USA type gel, which is known for its excellent adhesive properties and effectiveness. This gel type ensures that our Tens electrodes firmly stick to your skin, allowing for accurate muscle stimulation and pain relief.

Our Tens electrodes come in a square or round shape, but we also offer customization options for other shapes. No matter what shape you choose, our Tens electrodes are designed to provide optimal comfort and flexibility. You can wear them for extended periods without experiencing any discomfort or irritation.

The adhesive used in our Tens electrodes is gel-based, which ensures that they are easy to apply and remove. You don't have to worry about any residue or stickiness after removing the electrodes. Additionally, our Tens electrodes are flexible, which means that they can bend and move with your body, providing maximum comfort and support.

Overall, our Tens electrode pads are perfect for anyone in need of pain relief or muscle stimulation. They are easy to use, reliable, and long-lasting. Whether you're an athlete, a worker, or someone dealing with chronic pain, our Tens electrodes can help you feel better and improve your quality of life.
