Product Description

Reusable Electrode Pads With Adhesive Gel For Physiotherapy

Product Description:

Our TENS electrode pads come in a size of 2, making them perfect for use on various parts of the body. Whether you're experiencing pain in your back, neck, shoulders, or knees, our electrode pads are the perfect solution. The adhesive gel used in our electrode pads is of the highest quality, sourced from China, Japan, and the USA. This ensures that our pads have excellent adhesive properties and do not fall off even during intense physical activity.

One of the best things about our TENS electrode pads is how easy they are to apply. You don't need any special skills or equipment to use them. Simply peel off the backing and apply the pad to the affected area. The adhesive gel ensures that the pad stays in place for as long as you need it to.

Our TENS electrode pads are an excellent choice for anyone in need of quick and effective pain relief. With their high-quality adhesive gel and soft cloth material, they are the perfect solution for anyone looking for a pain-free experience. So why wait? Order your set of TENS electrode pads today and experience the difference for yourself!
