Overview

Video Description

Product Description

What is Pelvic Floor Stimulator(PFS)

It is an ultra simple, yet powerful digital Pelvic Floor Stimulator (PFS). Compact, stylish and designed for use by women of all ages to help strengthen pelvic floor muscles.

PFS can help women gain greater bladder control, increased vaginal tone and greater sensation during intercourse.

One in three women suffer from incontinence during their lives. It can occur at any time, most commonly after childbirth. Pelvic Floor Stimulation strengthens the pelvic floor by passing mild electrical pulses via an internal vaginal probe to contract and relax the pelvic floor muscles.

Name	Vaginal Probe with Indicator
Output Channel	Single

Program	Urge ,Stress ,Mixed ,After Care
Output Voltage	0-40V adjustable in 15 steps across a 500 Ω load
Output Intensity	0-80mA adjustable in 15 steps across a 500 Ω load
Output Waveform	Biphasic rectangular
Frequency	Refer to Point 6 for treatment program
Safety	Automatic 5 minutes power Off
Battery	2 x 1.5v AAA Batteries
Battery low detect	2.2V \pm 0.1V
Automatic Power Off	If the output remains zero for 5 minutes, the device will automatically shut down
Environment For Storage & Use	Temperature 0-40°C Air humidity 30-75%
Expected Service Life	About 5 years
Length	90.9 mm
Diameter	\varnothing 28 mm
Material	ABS + Stainless Steel
Warranty	1 year
Certificates	ISO 13485, CE, ISO 10993
OEM Service	Available

Program	Display	Output Frequency/Duration
Urge	A	5Hz/3mins ,10Hz/5mins ,15Hz/5mins,20Hz/5mins,15Hz/5mins,10Hz/5mins ----- Total time=30mins
Stress	B	10Hz/5mins.35Hz/5mins ,50Hz/10mins,35Hz/5mins,10Hz/5mins ----- Total time=30mins
Mixed	C	10Hz/5mins, 20Hz/5mins ,30Hz/5mins, 40Hz/5mins ,50Hz/5mins ,40Hz/5mins ,30Hz/5mins ,20Hz/5mins, 10Hz/5mins -----Total time=45mins
After Care	D	Frequency Modulation Frequency is gradually increased from 2Hz to 10Hz in 4 seconds and then decreased back to 2Hz in another 4 seconds. Total cycle is 8 seconds. Pulse width is 200us. Total time=45 mins.

Features and Benefits

- * Strengthens pelvic floor muscles
- * 4 pre-set modes
- * Large LCD user display

Real picture display

* vaginal probe * Instruction manual * 1x Leadwire * Neck Cord * 1x Lubricant gel sachet * Soft pouch * 2 x AAA batteries

SAFETY INFORMATION

Inspect the equipment before using it.

1. It is advised to get the advice from medically trained personnel before using the device.
2. The treatment is a personal ordination, so DO NOT lend probe to anyone else
3. People with implanted electronic equipment such as pacemakers and intracardiac defibrillators must not be treated with the device.
4. Do not use the device over the abdomen during pregnancy.
5. If high frequency surgical equipment is connected, stimulation should not take place.
6. Do not use the device in the vicinity of shortwave or microwave therapy equipment as this may affect the output power of the unit.
7. Keep the device out of reach of children.
8. If tissue irritation should occur, discontinued the treatment temporarily. If problems continue, contact your doctor. Hypersensitivity can occur in isolated cases. The problem usually disappears when probes or gel are changed to another type.
9. Never open the battery cover during stimulation in order to avoid electrical shock.
10. Turn off the device before removing the probe.
12. Use this device only with the leads and accessories recommended by the manufacturer

FAQ
