## Product Description

### Multi Colored 5N Kinesiology Sports Tape Waterproof Breathable With Acrylic Gel

#### Product Description:

One of the key features of this kinesiology tape is its breathability. This feature allows air to circulate freely around the taped area, preventing sweat build-up and reducing the risk of skin irritation. This makes it perfect for use during long training sessions or competitions.

The kinesiology tape comes in a roll-on application method, making it easy to apply and adjust as needed. Simply roll out the length you need and cut to size. The elasticity ratio of  $1:2\pm0.3$  ensures that the tape conforms to your body's contours, providing the necessary support while allowing for a full range of motion.

The kinesiology tape is 5m in length, providing enough tape for multiple applications. Whether you're looking to support your muscles during a heavy lifting session or help prevent injuries during a marathon, this kinesiology tape is the perfect solution.

Overall, the kinesiology tape is a great addition to any athlete's training kit. With its breathable material, roll-on application method, and elasticity ratio, this kinesiology tape provides the necessary support and comfort to help you perform at your best.

#### Features:

Product Name: Kinesiology Tape

Width: 5cm

Gel: Acrylic

Elasticity Ratio:  $1:2\pm0.3$

Stretchability: 140%

Adhesive Strength: 5N

This Kinesiology Tape is a versatile muscle tape and sport tape that is perfect for athletes and fitness enthusiasts. Its 5cm width ensures that it can be used on various parts of the body, while its acrylic gel and  $1:2\pm0.3$  elasticity ratio provide optimal support and comfort. With a stretchability of 140% and adhesive strength of 5N, this Kinesiology tape is an essential addition to any sports kit.

#### Technical Parameters:

Product Attribute	Value
Muscle tape Width	5cm
Gel	Acrylic
Length	5m

Sport tape	Yes

#### Applications:

When it comes to sports, athletes often use kinesiology tape to provide support and stability to their muscles and joints. Whether you're playing basketball, running, or lifting weights, this sport tape can help you perform at your best and reduce the risk of injury. The Janejoy Kinesiology tape is perfect for athletes who want to take their performance to the next level.

For those who are recovering from an injury, kinesiology tape can be used to help with rehabilitation. By providing support to the muscles and joints, it can help reduce pain and inflammation, and promote faster healing. The Janejoy Kinesiology tape is an excellent option for those who are recovering from an injury and want to get back to their normal activities as soon as possible.

Overall, the Janejoy Kinesiology tape is a versatile product that can be used in a variety of different scenarios. Whether you're an athlete looking to improve your performance or someone recovering from an injury, this kinesiology tape is an excellent option. So why wait?

Order your Janejoy Kinesiology tape today and experience the benefits for yourself!

#### Customization:

The Janejoy Kinesiology Tape is waterproof and breathable, making it convenient for usage during any physical activity. It is the ideal sport tape for athletes looking to improve their performance and prevent injuries.

Our muscle tape is easy to apply, with a roll-on application method that simplifies the process of using it. With the Janejoy J02 Kinesiology Tape, you can customize your tape to suit your preferences and needs, whether it's for sports or rehabilitation purposes.

## Support and Services:

Kinesiology Tape is a medical adhesive tape that is designed to help support muscles and joints during physical activity. The tape is made from a stretchy, cotton-based fabric that allows for full range of motion while still providing support where it is needed. Our product comes with various features and benefits such as:

Water-resistant and sweat-resistant

Latex-free and hypoallergenic

Easy to apply and remove

Can be worn for several days at a time

Can be used on a variety of body parts, including the knee, ankle, shoulder, and back

If you have any questions or concerns about using Kinesiology Tape, our product technical support team is available to assist you. We are dedicated to providing our customers with the best possible service and support.

Our services include:

Assistance with product selection and application

Instructional videos and resources

Answers to frequently asked questions

Follow-up support to ensure customer satisfaction

Our goal is to provide you with a positive experience and help you get the most out of our product. Please do not hesitate to contact us if you need assistance.

## Packing and Shipping:

### Product Packaging:

The Kinesiology Tape product will be packaged in a sealed plastic bag with a label displaying the product name, size, and manufacturer information. The bag will be placed inside a cardboard box for added protection during shipping.

### Shipping:

The Kinesiology Tape product will be shipped via standard ground shipping. The product will be shipped from our warehouse within 1-2 business days of receiving the order. Shipping times may vary depending on the destination, but typically take 3-5 business days within the continental United States.

## FAQ:

### Q: What is kinesiology tape?

A: Kinesiology tape is a therapeutic tape that helps support muscles and joints during physical activity. It is designed to mimic the elasticity of human skin and can be used to reduce pain, swelling, and inflammation.

### Q: How do I use Janejoy kinesiology tape?

A: 1. Clean and dry the area where you will apply the tape. 2. Cut the tape to the desired length. 3. Round the corners of the tape to prevent it from peeling. 4. Apply the tape to the affected area, stretching it gently to cover the entire area. 5. Rub the tape to activate the adhesive.

### Q: Is Janejoy kinesiology tape waterproof?

A: Yes, Janejoy kinesiology tape is waterproof and can be worn while swimming or showering.

### Q: Can I wear Janejoy kinesiology tape for an extended period of time?

A: Yes, Janejoy kinesiology tape can be worn for several days at a time. It is designed to be breathable and hypoallergenic, so it is safe for most people to wear for extended periods.

### Q: Where is Janejoy kinesiology tape made?

A: Janejoy kinesiology tape is made in China.
