## Product Description

### Ultra Flexible Muscle Tape For Enhanced Performance And Recovery

#### Product Description:

One of the key features of our Kinesiology Tape is its waterproof and breathable design, which makes it the ideal choice for athletes who need a tape that can withstand even the toughest conditions. The tape is made from high-quality materials that allow your skin to breathe, while also providing excellent moisture resistance to keep you dry and comfortable.

Another important benefit of our muscle tape is its stretchability. With a stretch rate of up to 140%, the tape can be easily applied to any part of your body, providing a secure and comfortable fit that won't restrict your movement. Whether you're running, jumping, or lifting weights, our Kinesiology Tape will give you the support you need to perform at your best.

Our Kinesiology Tape is also latex-free, which means that it is safe and gentle on even the most sensitive skin. Unlike other types of sports tape, our muscle tape won't cause any irritation or allergic reactions, making it the perfect choice for anyone who wants to protect their muscles and joints without having to worry about skin irritation or other side effects.

If you're not sure whether our Kinesiology Tape is right for you, why not take advantage of our free sample offer? We're confident that once you try our muscle tape, you'll never want to use anything else. So why wait? Order your free sample today and experience the ultimate in muscle support and comfort!

#### Features:

Product Name: Kinesiology Tape

Stretchability: 140%

Latex-Free: Yes

Width: 5cm

Elasticity Ratio: 1:2±0.3

Adhesive Strength: 5N

This sport tape, also known as muscle tape, is a high-quality kinesiology tape that is designed to provide support and relief to tired and sore muscles.

#### Technical Parameters:

Muscle tape	Kinesiology tape

Sport tape	Kinesiology tape

#### Applications:

With a strong adhesive strength of 5N, this sport tape is perfect for use on muscles and joints to provide support and stability during exercise. Its roll-on application method makes it easy and convenient to use, and its waterproof and breathable design ensures that it stays in place even during the toughest workouts.

Whether you're a professional athlete or a weekend warrior, this muscle tape is the perfect addition to your workout gear. Use it to prevent injuries, support sore muscles, and improve your overall performance. Its length of 5m means you'll have plenty of tape to use, and its durability of 5-7 days means you won't have to worry about replacing it too often.

So whether you're hitting the gym, going for a run, or playing your favorite sport, make sure you have Janejoy's J02 kinesiology tape on hand to help you perform at your best. Order yours today and experience the difference for yourself!

#### Customization:

Our kinesiology tape is designed for athletic use, with breathable 95% cotton and 5% spandex material that allows for movement without restriction. The tape's acrylic gel provides a stable grip, ensuring that it stays in place for 5-7 days of use. Plus, our tape is latex-free, making it safe for all users.

With our product customization services, you can create a kinesiology tape that meets your exact specifications. Whether you need a

specific color, size, or shape, we can help. Our team will work with you to ensure that your custom kinesiology tape meets your needs and exceeds your expectations.

Order your custom Janejoy kinesiology tape today and take your athletic performance to the next level!

## Support and Services:

The Kinesiology Tape product offers the following technical support and services:

- Instructions for proper application and usage
- Frequently asked questions and troubleshooting tips
- Access to product user manuals and guides
- Online support and resources
- Warranty information and product registration
- Assistance with product selection and customization
- Information on product compatibility and integration with other equipment or devices

## Packing and Shipping:

### Product Packaging and Shipping for Kinesiology Tape:

Our Kinesiology Tape comes in a compact, easy-to-carry box. The tape is carefully wound around a spool inside the box, ensuring that it stays in place and does not get tangled. The box is made of sturdy cardboard and is designed to protect the tape from damage during shipping.

We ship our Kinesiology Tape using trusted shipping providers. Depending on your location, we offer both standard and expedited shipping options. All orders are processed within 24 hours of receipt, and we will provide you with a tracking number so you can easily track your package.

If you have any questions about our product packaging or shipping, please do not hesitate to contact us. We are always happy to help!

## FAQ:

### Q: What is Janejoy Kinesiology Tape?

A: Janejoy Kinesiology Tape is a type of therapeutic tape designed to support muscles and joints during physical activity. It is made from a stretchy, breathable fabric and is used to help improve circulation, reduce pain, and promote healing.

### Q: How does Janejoy Kinesiology Tape work?

A: The tape works by lifting the skin and creating space between the muscle and fascia, allowing for increased blood flow and lymphatic drainage. This can help reduce inflammation and pain, and improve healing and recovery.

### Q: How do I apply Janejoy Kinesiology Tape?

A: First, clean and dry the area where you will be applying the tape. Then, cut the tape to the desired length and shape, and round the corners to prevent the tape from peeling up. Apply the tape with light tension, overlapping each strip by about half its width, and rub the tape to activate the adhesive.

### Q: Can I shower or swim with Janejoy Kinesiology Tape?

A: Yes, Janejoy Kinesiology Tape is water-resistant and can be worn in the shower or while swimming. However, be sure to pat the tape dry after getting wet to help it adhere better and last longer.

### Q: Where is Janejoy Kinesiology Tape made?

A: Janejoy Kinesiology Tape is made in China.
