Product Description

USB Portable Mesh Nebulizer For Asthma Treatment

Product Description:

One of the standout features of this nebulizer is that it is a Mesh Nebulizer, which means that it uses advanced mesh technology to ensure that the medication is atomized at a rate of at least 0.2ML/min. This ensures that you get the maximum benefit from your medication, and that it is delivered to your lungs as effectively as possible.

The Portable Nebulizer Machine is designed to be easy to use and convenient to carry around. It is a Portable Type nebulizer, which means that it is small enough to fit in your pocket or bag, making it easy to take with you wherever you go. It is made from high-quality ABS material, which is durable and long-lasting, so you can be sure that it will provide you with many years of reliable use.

One of the best things about this nebulizer is that it is powered by a USB rechargeable battery. This means that you can easily charge it using a USB cable, making it very convenient to use. You can charge it from your laptop, your phone charger, or any other USB power source, which means that you can use it even when you're on the go.

The Portable Nebulizer Machine is perfect for anyone who needs to nebulize medication on a regular basis. Whether you're dealing with asthma, COPD, or any other respiratory condition, this nebulizer will provide you with the relief you need. It is easy to use, portable, and effective, making it the ideal choice for anyone who needs a reliable nebulizer.

In summary, the Portable Nebulizer Machine is a Mesh Nebulizer that is designed to be portable, durable, and effective. It is made from high-quality ABS material, and is powered by a USB rechargeable battery. It atomizes medication at a rate of at least 0.2ML/min, ensuring that you get the maximum benefit from your medication. If you're looking for a reliable nebulizer that you can take with you wherever you go, then the Portable Nebulizer Machine is the perfect choice.

Features:

Product Name: Portable Nebulizer Machine

Power Supply Mode: USB Recharge

Operate Method: Adapter For Power

Instrument Classification: Class II

Atomization Rate: $\geq 0.2\text{ML/min}$

Type: Ultrasonic

This Portable Nebulizer Machine is a Mesh Nebulizer with USB rechargeable power supply mode, adapter for power operate method, Class II instrument classification, an atomization rate of $\geq 0.2\text{ML/min}$ and Ultrasonic type.

Technical Parameters:

Nebulizing Rate	$\geq 0.25\text{ml/min}$
Warranty	1 Year
Atomization Rate	$\geq 0.2\text{ML/min}$
Noise Level	Less Than 60dB
Type	Ultrasonic
Power Supply	USB Cable
Oem	YES
Instrument Classification	Class II
Operate Method	Adapter For Power
Product Type	Portable Type

Applications:

With an atomization rate of $\geq 0.2\text{ML/min}$, this nebulizer is efficient and effective in delivering medication to the lungs. The power supply for this device is a USB cable, allowing for easy charging and use with a power bank or laptop. The operate method is an adapter for power, ensuring consistent and reliable performance.

The Janejoy Portable Nebulizer Machine is suitable for a variety of product application occasions and scenarios. It is ideal for those with respiratory illnesses such as asthma, bronchitis, or pneumonia. It can also be used for individuals with allergies, colds, or flu.

This mesh nebulizer is perfect for use at home, in the office, or while traveling. It can easily fit into a purse, backpack, or luggage, making it a convenient choice for those who require respiratory therapy on-the-go.

Additionally, this portable nebulizer is a great option for parents with young children who require respiratory therapy. The quiet operation and compact design make it less intimidating and more approachable for children, making the therapy process less stressful.

The Janejoy Portable Nebulizer Machine is also suitable for use in hospitals, clinics, and nursing homes. Its efficiency and effectiveness in delivering medication make it a valuable tool for healthcare providers. The portable design allows for easy transport from room to room, ensuring that patients receive their respiratory therapy when and where they need it.

In conclusion, the Janejoy Portable Nebulizer Machine is a versatile and reliable option for anyone in need of respiratory therapy. Its efficient atomization rate, quiet operation, and portable design make it a top choice for individuals, parents, and healthcare providers alike.

Customization:
